

#23

ATTORNEY DOCKET NO.: 2002834-0050 (PCR Mutagenesis)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Caplan
Serial No.: 09/247,406
Filing Date: February 10, 1999
Title: METHODS OF ALTERING UNDESIRABLE IMMUNE REACTIONS TO POLYPEPTIDES
Examiner: Ponnaluri
Art Unit: 1627

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

RESPONSE TO ELECTION REQUIREMENT

In an Election Requirement mailed on July 30, 2002 (Paper Number 20) in the above-referenced case, the Examiner requested election of a single disclosed species of *allergen protein*, although available species were not listed.

Applicant appreciates the burden associated with searching the presently claimed invention to its full and proper scope, and therefore invites the Examiner to begin her analysis with food allergen proteins. If more specificity is required, the Examiner is invited to begin her analysis with peanut allergen proteins, and specifically Ara h 1, 2, and 3.

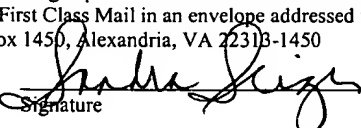

It is Applicant's understanding that there are no fees associated with this matter. Should this understanding be in error, please charge any fees to our Deposit Account No. 03-1721.

Respectfully submitted,

Dated: 1/13/2004

Brenda Herschbach Jarrell, Ph.D.
